DESCRIPTION

This prestigious single villa is spread over two levels for a total of about 800 square meters, offering ample space both inside and outside. The second floor is accessed via an external staircase leading to the entrance terrace. Once you enter, you are greeted by a large living room that overlooks the large surrounding private garden. The living area presents an important square footage and has a French door that gives access to the second terrace. On the same floor there are three large and bright double bedrooms, the master has a private bathroom.

Going up to the upper floor, there are two large rooms that can be used as a hobby/study room. Thanks to the height of the floor, there are beautiful panoramic views from the windows. The villa is also equipped with an independent heating system, which ensures optimal living comfort in every season. Large garages complete the property. In summary, this prestigious and modern single villa is an excellent buying opportunity for those looking for a spacious and comfortable living solution, in a quiet area but well connected to the city center.
