DESCRIPTION

Detached period house with garage for car collectors in downtown Monza

Monza, rare combination of an elegant mansion of the early 900's with a large garage of over 500 sqm conveniently located to the center and to the large park of the royal villa. This solution is ideal for car collectors, who like to have their jewels at hand: in fact the house, arranged on two levels for a total of 350 sqm and with an internal giardinino and ampaia terrace has a former workshop of 520 sqm,

ideal to shelter their collection of cars or motorcycles. The shed, however, is a flexible space to be interpreted according to the needs and passions of the owners: you could realize a large indoor swimming pool, a gym, a climbing gym, a large music or cinema room or whatever the imagination will ask you. It's also possible to recover it with a change of residential use and turn this area into a residence.
