DESCRIPTION

Charming Property for Renovation in the countryside of val di Noto - Sicily - Italy

The property consists of a series of buildings with exposed stone forming an L and occupies an area of 230 square meters. It has basalt floors, the stablehouses a characteristic masonry manger and typical cobblestone flooring. The rest of the Baglio is along a dirt road accessed by an iron gate, and upon entering, like a jewel box, the baglio emphasizes its perimeter, contrasting with the green ivy that covers its walls. The dry-stone walls typical of the Modican countryside

border 2,700 square meters of land full of Mediterranean aromas. The buildings, equipped with water and electricity connections, need to be renovated. Its location places it 5 km from Modica and about 20 km from the sea. The buildings are of good workmanship made of masonry, in hard limestone of Modica type exposed. The remaining roof is of wooden supporting structure and shingled in Sicilian tile, the average height of the building is about 3.50 m. View of the access
