The living room opens into a double height that amplifies space and light, giving a feeling of breath and continuity. The walls soar upward accompanying the gaze, while natural light descends from above and envelops the room, enhancing its volumes and proportions. The space dedicated to the fireplace becomes the heart of the living room, a cozy and cozy place that invites pause. It is a point of balance between functionality and atmosphere, designed to gather, relax and mark the most authentic moments of domestic life. The house, equipped with

the latest technology, is designed to take care of those who live in it. Outside, a private garden gives you an authentic oasis of peace: the perfect place for outdoor dining, family games or simply to breathe in the beauty of nature. Here you don't just buy a house, but a way of life. Let yourself be conquered by an atmosphere that excites, welcomes and surprises. Currently the property is in the unfinished state, a condition that allows you to customize all the elements that will give shape and life to your ideal home.
