## DESCRIPTION

# Skyfin - Modernist Architectural Icon in Prestigious Morningside

Welcome to Skyfin, an extraordinary residence that redefines contemporary luxury in the heart of the prestigious private community of Morningside. Originally designed by renowned architect Rufus Nims, this iconic property has been masterfully reinterpreted by architect Gabriela Liebert, transforming it into a true masterpiece of modern design. Designed for a sophisticated lifestyle and upscale entertainment, the residence offers over 4,200 square feet of elegant interior spaces and approximately 2,100 square feet of outdoor areas, including dramatic terraces, balconies and an exclusive panoramic rooftop that creates a seamless continuity between architecture and outdoor lifestyle. The interiors

reflect an obsessive attention to detail and excellent craftsmanship, with fine materials and tailored solutions: fully integrated premium appliances by Miele, a spectacular designer kitchen by Boffi, and refined oak floors that enhance the home's minimalist and elegant aesthetic. Each room is designed to offer light, fluidity and harmony, creating ideal spaces for both everyday living and exclusive events. Skyfin is not simply a home, but an architectural statement. A residence destined to become a design landmark in Miami, representing a rare investment and ultra-premium lifestyle opportunity. An iconic property for those who want to own the future of luxury in Miami today.
