Designer penthouse in Midtown Miami with panoramic terraces and iconic architecture

Signed by renowned Portuguese architect Ines Martins, this extraordinary penthouse in the heart of Midtown Miami represents a new expression of contemporary luxury living, where aesthetics, volumes and views come together in perfect harmony. The residence, the largest in the building, is distinguished by a striking architectural design and craftsmanship that is felt in every detail. Spacious terraces wrap around the entire property, offering spectacular and dynamic views of Biscayne Bay, the Miami skyline, Coral Gables and the vibrant Wynwood arts district. The interiors unfold in a succession of dramatic rooms characterized by double-height ceilings of more than six meters, floor-to-ceiling glass walls and extraordinary

luminosity. The refined and elegant finishes combine marble floors and fine wood, creating a perfect balance between warmth and contemporary. The distribution of spaces is designed to offer a perfect synergy between conviviality and privacy. The living area opens onto a state-of-the-art kitchen with a central island, designed as the hub of the home-ideal as much for entertaining as for more intimate moments. The master suite is an oasis of quiet and refinement, complemented by a spa-inspired en suite bathroom, conceived to offer a daily experience of absolute well-being and relaxation. A penthouse of rare elegance, where design, proportions and iconic views set a new standard of exclusivity in Miami real estate.
